During our year-long study with Reggie Ezell, we learned a not-so-daunting technique of gilding.

Gilding is popular in calligraphy, yet many find it intimidating.

Come see what this meeting has to offer.

# Exploring the Artistic Process

Fall Classes sponsored by Collage

Thursdays, September 20 – Oct. 11, 2007 • 7 – 9 PM • 1700 Gateway Blvd., Richardson, 75080

**Travel Photography: Moving Beyond Snapshots** Join Barb Alderson as she shares insights and photo tips from her trip to Ethiopia. We guarantee that you will improve your travel photos after this informative and creative evening! Paul Whitworth will also be sharing. Feel free to bring two of your favorite travel photos for an optional encouraging and helpful critique. **September 20<sup>th</sup>**.

**Exploring Abstract/Non Representational Art** Can't draw a straight line? Great! This workshop is for you! Come learn easy techniques and starting points for creating fabulous art. This is a "hands on" experience. Teta Aris will make it fun and something at which every one will be successful. **September 27<sup>th</sup>**.

**Exploring Collage...the art form - not the group** Does texture intrigue, excite you, or make you want to touch it? Can you tear paper? Great! That's all the skill you need to learn how to develop a wonderful piece of art with collage. As always, Teta will emphasize the fun. One of her often repeated beliefs is "If I can keep you laughing, I can keep you learning." Come laugh & learn with us. **October 4<sup>th</sup>**.

**Designing for Impact** Connect the dots in the elements of design as Michelle Johnson leads us in refining our art through this important process. Carol Scott will also be sharing about her approach as she creates calligraphic artwork. Feel free to bring two of your own works for an optional encouraging and helpful critique. **October 11<sup>th</sup>**.

Fort Worth Calligraphers Guild presents

# Spontaneous Combustion

with Judy Melvin

Saturday & Sunday October, 20 & 21, 2007

9:00am-4:30pm

Irving Center for the Arts

2000 W. Airport Freeway, Irving, TX

This is a a class full of tricks and techniques which are applied to actual design projects. The vision of this class is to control the full of failure and to encourage participants to work quickly on several pieces at once...jumping from one to the other spontaneously. The combustion (no actual burning here) moves from one person to another throughout the whole room.

Judy works with a myriad of media...bring whatever you have and we will try and use it. These 2-days will be fast-paced, positive and fun.

**The focus is to add to the individual vision of each artist.**

The class will be fast-paced, electric and fun! Collaborations are also encouraged. Come and celebrate the joy of creating and opening your mind to new solutions and ideas.

**TO REGISTER:** \$95 plus supply fee \$20. Supply fee includes Arches text wove and cover papers, inks and gesso. A deposit of \$50 will hold your place. The balance is due by October 10, 2007.
